TWENTY-EIGHTH YEAR. NO. 37.

CEDARVILLE, OHIO, FRIDAY, SEPTEMBER 1, 1905.

PRICE \$1.00 A YEAR.

CARS COLLIDE; ONE DEATH.

A distressing accident happened, Tuesday morning, on the Springfield and South Charleston traction line, when the passenger car run into a gravel train. The passenger car was telescoped and Miss Mary Collins, sister of Dr. M. H. Collins of South Charleston, was killed almost instantly, and several other persons injured.

The accident is said to have been caused by a misunderstanding of orders. The motorman on the passenger car had been given orders to pass the work train at Stewart's crossing while the motorman on the work train claims that he was to pass the passenger car at Shobe's switch, which is nearer Charleston.

The passengers on the ill fated car were warned but all could not escape. The motorman and conductor both escape by jumping. Miss Collins was trying to escape by means of the front door when the cars came together. She was caught between the floors of the two cars as they telescoped. Dr. C. W. Russell stated that the air was expelled from her lungs so forcibly that death was practically instantaneous. There was no bones broken and the flesh was not lacerated.

Those who were injured were Mrs. L. O. Mock, South Solon, leg injured the knee and body bruised; Mrs. John Garlough, Pithin, bruised about the hip, back and shoulders; Mrs. Ellen McKenna, Charleston, shoulder dislocated; five-year-old son of Mrs. Mock, scalp wound.

Miss Collins has traveled extensively over Europe and had planned another trip there in a few weeks. The funeral was held from the home Thursday afternoon.

FRIEND'S RESOLVE.

At the Ohio yearly meeting of the Friends Church at Columbus Saturday, the committee report on the abolition of the liquor traffic was adopted unanimously. The following is a part of the report:

"Therefore we view with alarm the attitude of the Governor or of our beloved state on the saloon question. Truly it is a cause for alarm when the Chief Executive of the great State of Ohio so defines his position that the liquor dealers' organ gives a portrait of the Governor and calls him the 'ideal of the liberal heart.' May God help us to elect a Governor who will not be the 'ideal of the liberal heart,' for that simply means favorite of the brewers and saloon keepers.

ALMOST A MIRACLE.

William Gregg of Xenia, a brother of Mrs. E. G. Lowry of this place, who, while brakeman on a local freight train on the Pennsylvania railroad almost a year ago, fell beneath his train so that the wheels passed over both legs, terribly mangle them, is now about to take a position as car inspector for the Pennsylvania Railroad Company, at the powder mills at Goes station. The recovery of Gregg is one of the most remarkable on record. When he was brought to his home the evening of the accident, the attending physicians said that he would not survive the night. The mangled limbs were not amputated on account of the weakened condition of the man, whose life hung by a thread for weeks. The limbs that had been crushed almost to a pulp began to heal, and Mr. Gregg steadily gained in strength. He is now, with the aid of braces on his limbs, able to walk without crutches.

MONDAY IS LABOR DAY.

Monday is a legal holiday and a day that is observed as such in most all of the important cities of the country. Especially is this so where labor unions are strong. In the smaller villages there is seldom any attention paid toward observing it other than any other "labor" day. Springfield this year as in the years past will have a great celebration. The fair grounds will be the principal place of merriment, where during the day, races and all kind of sports take place. In the evening will be seen one of the finest displays of fire works ever used on such an occasion. In years gone by the crowd that has attended this celebration is said to have numbered over 12,000. With the races at the local track and the different programs of amusement in the near by cities there should be no trouble for the people of this vicinity in being entertained on Labor day.

A CLIFTON FIRE.

The residence of Richard Sparrow of Clifton was destroyed by fire Tuesday morning. The fire was first discovered on the inside about eight o'clock but there being no fire, protection it was impossible to save the house. Most of the household goods were saved. Mrs. Sparrow is an invalid and fire is kept in her room most of the time and it is thought that a defective flue was the cause. The loss will be \$1000 with \$500 insurance. The contents were insured at \$800 but they were not damaged to any extent.

BIG DAMAGE SUIT.

Oscar O. Mason, a farmer of Clinton County, has brought suit in the Greene County Court of Common Pleas, against Edward E. Brakefield, of this county, for \$10,000 damages for alienating his wife's affections. Mason and his wife were married September 19 1897, and have one child. Brakefield lived only a short distance from the family, and Mason claims that Brakefield broke up his happy home.

HARMONT EXAMINER.

Prof. Jesse McCord, who has been one of the members of the Greene County Examining board and whose term expired on August 31, 1905, handed in his resignation on Monday to Probate Judge Shoup. Prof. R. S. Harmont of Spring Valley, has been appointed to fill the vacancy. Judge Shoup has also appointed Prof. George Barnes, whose term expired this month, to succeed himself for another term of three years.

PRISONER ESCAPES.

Edward Beach, a prisoner at the Xenia workhouse escaped last Saturday morning, despite the fact that it was broad day light he robbed two houses in the vicinity. At these houses he helped himself to such clothing, hats, shoes, and money as would be necessary to make a pleasant journey. The last reports are that the fellow is still having a very delightful time and has not yet notified Supt. Crow as to when he might return.

ODD FELLOWS' PICNIC.

The different orders of the I. O. O. F. of Greene county will hold a picnic at the New park, Yellow Springs, on Wednesday, Sept. 6. All Odd Fellows' and their families and friends are respectively asked to attend. Bring well filled baskets and enjoy the day together. Music will be furnished by the Cedarville Band. Plenty of amusements for all.

WHAT WILL THE GOVERNOR DO.

The Dayton Journal and the Herald of the same city, both Republican organs, have been having considerable discussion over Gov. Herrick's attitude on the canal question. It will be remembered during the last session of the legislature there was a bill introduced by some capitalists wanting the state to give them the sperm bank of the canal to be used as a right of way for an electric line. It was only by the hardest fight that the bill was defeated, and much of the success is given to our own Representative, Mr. Little. The moneyed men have yet given up the idea of getting this right at the public's expense and the Governor is being placed in a very close place. Both the Governor and George B. Cox, are said to be members of the company and this is the reason the Dayton Herald has wanted the Governor's views on the situation. It has all along been contended that the canal was of no benefit to the state but the Government has just issued a report stating that with a small expense the waterway can be made a ship canal, making transportation by way of the Mississippi river and Lake Erie possible. Such a movement as this means thousands of dollars yearly to the manufacturers of Dayton as well as to the laboring classes. And it was this that no doubt prompted the Herald to demand of the Governor what he would do when such a bill was passed. Both the Journal and Herald have taken the canal steal by the horns and exposed it but the Journal holds tightly to the Governor. The Herald has the following to say in a recent issue.

"The attention of Candidate Herrick is again respectfully called to the evident propriety of his announcing his personal and official attitude toward the present and prospective attempts to relieve the state of Ohio of her canal systems. As the Herald has already insisted, the history of this attack upon one of the state's most valuable assets is so full of menace to the people as to justify the prediction that nothing short of the most patriotic and determined stand on Governor Herrick's part will prevent the consummation of the outrage by the next General Assembly.

Just what plan is in the minds of the plotters has not yet developed; but that they will seek by any available means to secure further legislation favorable to their scheme is as certain as that sundry prospective legislators are ready to help it through. It may need only the wink of the Bosses, assisted by the arguments of the Lobby, to hand the property of the State over to the looters. The danger is great; the situation is grave; and it is the duty of Governor Myron T. Herrick to inform the electors of Ohio at once whether or not, in the event of his election, he will stand by the people to combat that danger or will align himself with the public enemy.

This is no trifling matter. The friends of the canals have a right to insist—nay, to demand—that Governor Herrick, before election day comes, shall put himself squarely on record either as a friend and defender of Ohio's canal system, and of its preservation, or as willing, on the other hand, to see that system once upon, cripple diverted to other purposes and finally destroyed. His influence, or the influence he should have, with the next General Assembly, would, if firmly asserted

upon the right side of the canal issue, suffice to defeat the machinations of the men of corporations who are concerned in this raid upon public property. The mere knowledge that his veto power will be unhesitatingly exercised to that end would of itself prevent, as we believe, the adoption of any anti-canal legislation. Will candidate Herrick satisfy the natural anxiety of the scores of thousands of friends of the canals upon this question? They have the right to know, and to know before they vote. The day when intelligent men voted blindly for any and every party candidate, without knowing where he stood on issues of vital importance to them, has gone by. In Ohio, as well as in Missouri, they want to be shown.

More generalizations will not do. The opinions and views of Senator Dick or of the Honorable George B. Cox are not desired. We are all satisfied that the dear, old Republican party is all right; but what will Candidate Herrick do with anti-canal legislation? That is the question to which on behalf of the friends of Ohio's splendid canal property, the Herald urgently requests the unequivocal answer of Candidate Herrick. Silence is one sort of an answer. But silence in this instance is not acceptable nor adequate. It will be resented by thousands of voters. This may be a year when candidates on the Republican ticket can afford to ignore the public demand for specific pledges; and again, it may not. We think it is not.

In asking Governor Herrick to inform his constituents of his views as to the canals, we are assuming that he will be re-elected."

LONG AUTO RIDE.

Mr. Masters, of Wilmington, Del., arrived here a few days ago, joining his wife and daughter, who have been here for some time, guests at the country home of her sister, Mrs. Agnes Harrison. On Thursday of this week Mrs. Harrison, Mr. and Mrs. Master and Mr. W. R. Baker are planning to start for Wilmington, Del., making the trip in Mrs. Harrison's automobile. Barring accidents, they expect to reach their destination in eight or ten days, taking the trip easily, and they will no doubt enjoy it to the utmost.—Gazette.

AERONAUT'S FATE.

John E. Baldwin, aged 41, was blown to atoms while making a balloon ascension at the Greenfield Fair grounds Thursday afternoon. His balloon was torn into shreds so that no parts could be found. A crowd of 35,000 people attended the fair and saw the horrible accident. Fragments of the body were scattered over an area of twenty acres. Baldwin took up with him seven dynamite bombs to illustrate aerial war demonstration. The largest fragment of the man's body was a foot and an ankle.

THE AUTO ON THE PIKE.

Now that the people of this vicinity are having a taste of the automobile as are the people that live close to the larger cities it might be well to see just how much right each individual has to the pike.

The automobile is no longer an experiment and is a luxurious means of transportation for those who can afford it. It will be recalled that with the advent of the bicycle there was much opposition to it in fact as much as we hear today of the automobile. Time has changed things until there is scarcely a man, woman or child that when driving on the highway has any fear of the horse frightening. Just so will things be in the same length of time as to the automobile.

We hear it said that companies operating an auto line on schedule time has no right to the pike, but this is a wrong impression. The same law that governs the drivers of private autos governs those of companies which are operated for commercial purposes.

We find that during the last session of the legislature, a law was passed to regulate the speed of automobiles, which reads that no operator of such a vehicle shall go at a greater rate of speed than is reasonable and proper, having regard to the use in common of such highway, or so as to endanger life or limb of any person, and in no event shall such automobile be operated at a greater rate of speed than eight miles an hour in the business section of a municipality, nor more than fifteen miles an hour in other portions of a municipality, nor more than twenty miles an hour outside of municipalities. Operators are compelled to bring the automobile to a stop if the driver of any horse so singles him to stop. If necessary the motor of such car must be stopped. In passing automobiles the driver of such a machine must stop long enough to allow the horse and buggy to pass if he has been signaled. The fine in such cases is from five to fifty dollars.

One of the faults with the law is that the driver of an automobile may bring his machine to a stop with a few feet of a horse and he has complied with that section of the law. There should be some definite distance stated. Another fault is that no vehicle should be allowed to go over the streets or roads at twenty miles an hour. There is great danger in this as control may be lost of the machine at the time it was most needed in meeting horses. There is one feature of the automobile and that is horse breeders will profit by them as "city" broke horses are as much in demand in the rural districts as in the cities. The man that owns a horse that is city broke in every particular has a horse that is worth fifty dollars more than the one his neighbor has to drive down back roads to keep from meeting what ever might be on the pike.

One of the faults with the law is that the driver of an automobile may bring his machine to a stop with a few feet of a horse and he has complied with that section of the law. There should be some definite distance stated. Another fault is that no vehicle should be allowed to go over the streets or roads at twenty miles an hour. There is great danger in this as control may be lost of the machine at the time it was most needed in meeting horses. There is one feature of the automobile and that is horse breeders will profit by them as "city" broke horses are as much in demand in the rural districts as in the cities. The man that owns a horse that is city broke in every particular has a horse that is worth fifty dollars more than the one his neighbor has to drive down back roads to keep from meeting what ever might be on the pike.

CEDARVILLE COLLEGE.

The twelfth year of Cedarville College, will open in the college chapel Tuesday morning September twelfth at 9:30 o'clock. About forty new students will be enrolled and nearly all of last year's students will return. As usual books will be on sale at the college. New books will sell at cost. Second-hand books will sell at a reduction. The tuition and contingent fee are \$28.00 for the year. Miss Beazelle will be present Thursday September 14, to receive her music students. The music department will be filled with new and old students.

Prof. Fitzpatrick has been chosen to take the position of mathematics held by Miss Eddy, who recently resigned. This is a wise choice as mathematics is Prof. Fitzpatrick's strong point, and as he has been successful in other branches he taught, we predict for him a brilliant career in mathematics.

We are assured that if Prof. Jurkat continues to improve he will be able to take his place in college about one week after it opens. Until he is able to resume his duties, an experienced teacher will take his place.

The prospects for the college were never better before. Miss Mary Murdock, our financial agent in Southern Illinois sends from time to time encouraging news of the result of her work there.

All are cordially invited to the twelfth annual opening of Cedarville College.

Respectively,
W. R. McChesney.

MANGAN ARRESTED.

The Anti-Saloon League detectives, H. E. James and H. E. Frankes, filed affidavits against Tom Mangan druggist, Tuesday, charging him with selling intoxicants, on seven different occasions. They claim to have bought both beer and whiskey. Mayor Thomas set the hearings for Aug. 30, 31 and Sept. 6, 7, 8, 12 and 13. There is also an old case against Mangan, when he was up two years ago.—Greene County Press.

NOTICE WHO VOTED.

A summer theatre attendant at Columbus took a "straw vote" on Sunday recently and the State Journal says it resulted 47 for Herrick and 7 for Patterson. Sounds as if it might be true, as Herrick is pretty solid with the class of people referred to. Try a summer Chautauque, or some convention where brains predominate next time and the result will be different. Greene County Press

Nature's Great Invention

On the banks of the Amazon, far away, what Dr. Green calls August Flowers to day, he picked some flowers in August in old Brazil. An old Portuguese, who had been in Brazil for many years, told him that the flowers were the same as the ones he had seen in his native land.

August Flower is the only medicine (free from alcoholic stimulants) that has been successful in keeping the entire thirty-two feet of digestive apparatus in a normal condition, and assisting nature's processes of digestion, separation and absorption—for building and re-building—by preventing all irregular or unnatural causes which interrupt healthy and perfect natural processes and result in intestinal indigestion, catarrhal affections (causing appendicitis—stoppage of the gall duct), fermentation of unhealthy foods, nervous dyspepsia, headache, constipation and other complaints, such as colic, biliousness, jaundice, etc.

August Flower is nature's intended regulator. Two sizes, 25c, 75c. All druggists.

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache, that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My sister, who suffers the same way, has also taken them with the same results."

MRS. PARK, 721 S. Michigan St., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money.

SMITH & CLEMANS,

WINONA LAKE THIS SEASON

Will be Particularly Attractive for an Outing.

The summer of 1905 is to be an especially attractive season at Winona Lake, the beautiful resort of Northern Indiana on the Pennsylvania Lines. The Pennsylvania General Agent will convene the May 15th. Hotel special and excursion have been arranged for the summer season. There will be conventions and social and religious conferences from May until September. The literary representation will be prominent. In brief, it will be a most profitable season educationally, for students who attend the Summer School will derive much benefit.

Winona Lake has golf links, tennis courts, baseball and cricket grounds, boating, fishing, swimming and camping facilities. The Pennsylvania Lines run direct to the park on train, season and open day excursion tickets may be obtained from ticket agents of the Pennsylvania Lines. Information about Winona Lake, the season's program, hotel and excursion rates, etc., can be ascertained from S. C. Inkey, Secretary and General Manager, Winona Lake, Ind.

FRIDAY, SEPTEMBER 1, 1905.

When it is sifted down the minutes that are out campaigning for Governor Herrick have a political job or have ideas along the line that Bishop Potter had about revolutionizing the saloon business.

The Subway Tavern, which opened in New York some eleven months ago with an address by Bishop Potter and the singing of the doxology has closed its doors for the last time as a "sanctified saloon."

One of our local "Bosses" cannot agree with the Xenia Gazette in that "Governor Herrick certainly made no mistake in the appointment of Mr. O. E. Bradfute as a member of the Ohio State University Board."

The "Boss" has been very busy explaining what an awful down fall awaits the institution in that he holds the new appointed to be "incompetent." The difficulty was that the "Boss" hadn't been consulted and it wouldn't surprise us if he didn't come to the conclusion that Herrick was not the man for Governor.

Has anyone heard whether Governor Herrick threatened to veto the bill giving automobiles a speed of twenty miles an hour on pikes when it was before the committee as he did the Brannock law? The Governor wanted to be the umpire between the liquor people and the abstainers, why then didn't he see that the law governing autos be placed at a reasonable speed? Its plain to be seen that our Executive hasn't the safety of the people at heart whether it is at the bar in some groggery or on the public highway.

Politics in Fayette county has reached an alarming state owing to the "boss" rule. In that county the owner of most things politically lives in Columbus, Harry Daugherty, and the voters are getting somewhat disgusted. In fact so much so that a strong Republican county has heretofore slipped in a Democratic official or so each year. When the "gang" in that county nominates men the party will not stand for the nominee has another fight at the regular election. On Monday the Republican primary was held and the "gangsters" given a sample of what might happen this fall. The Daugherty people succeeded in nominating two men while the anti-placed three. The "Boss" in this county might take notice.

DEATH OF MISS ROSA STEWART.

After only a few days of serious illness Miss Rosa Stewart died Monday evening. She had been unwell all summer but within a few days of her death a serious case of diabetes developed. The deceased was the daughter of the late Dr. J. M. Stewart, who died February 29, 1899. Her mother died April 11, 1902. She leaves one sister, Miss Lillie, and two brothers, Dr. J. O. Stewart and S. L. Stewart.

She was a member of the Reformed Presbyterian church and was held in high esteem by all who knew her. The funeral services were held at the home Wednesday afternoon being conducted by her pastor, Rev. A. B. Henry, assisted by Rev. Alvin Orr and Rev. C. A. Young.

There were a number of floral offerings, among which was one from Mrs. E. W. Hagar of Xenia. The pallbearers were: S. L. Stewart, Dr. J. O. Stewart, Bert Ustick, Earl Ustick, Woodbridge Ustick and George Stewart. Burial took place at Massies Creek cemetery.

CONDENSED STORIES.

Seth Bullock's Clover Scheme to Secure Free Refreshment.

How Seth Bullock, superintendent of the Black Hills forest reserve, personal friend of the president and not infrequently a guest at the White House and a noted western character, managed to secure a fancy drink in the early days of Helena, is told by a resident of that city, now of this.

It was in the early sixties, when Helena was one of the banner placer mining camps of the west and gold was being washed by hundreds of men from the sands of Last Chance gulch (now Main street). Bullock wanted a fancy drink and did not care to remunerate the bartender with a fancy price in lieu, so he evolved a plan which worked to perfection.

Entering the saloon, Bullock said: "G—, I'll tell you what let's do. If

you will furnish the sherry I'll furnish the fresh eggs and we will mix up a drink that is out of sight."

As eggs were worth \$2 a dozen, the liquor man decided that it was a good bargain, although wine was also sold at a stiff figure in those days. Then Bullock went into a grocery store near by and said to the proprietor:

"If you will furnish the eggs I'll furnish the sherry, and we will have something worth while in the line of fancy drinks."

The grocer agreed to furnish the eggs, and a few minutes later both entered the liquor house. The concoction was duly prepared and the three began to absorb it.

As Seth swallowed his share an idea struck the bartender.

"Say," he demanded, he, turning on Seth, "where do you come in on this game anyway? W— has furnished the eggs and I have supplied the liquor. How do you get in?"

"Oh, I'm the promoter," replied Bullock with a smile.

There was nothing left to say. Washington Post.

A Financier.

Fritz Hoffmendorf, a butcher in a small western town, kept his money on deposit at the one bank the town boasted. While not very well versed in the intricacies of banking, he was very proud of the fact that he possessed a bank account and never failed to write a check when he was compelled to pay out any amount, however small.

One day, through some mistake, he drew a check for an amount somewhat in excess of his balance at the bank. Next morning William Jones, the collector for the bank, came into the shop where the butcher was chopping hamburger steak to the tune of "Ach, du lieber Augustin," which he was very earnestly whistling.

"Mr. Hoffmendorf," said Jones, "you have an overdraft at the bank amounting to \$1.63."

"Ach, is dot so?" said Fritz slowly. "Wait till I get my check book, Billy, and I'll give you a check for it."—Vernon Wilder in Harper's.

Mr. Hay's Sense of Humor.

Walter Hoff Seely, the insurance man, tells this: "I was talking lunch about a year ago in the Pennsylvania station at Jersey City and was seated on a stool at the lunch counter, when the Congressional limited came in, and among other passengers was Secretary Hay. Titching in to the lunch counter, he seated himself next to me and ordered a sandwich and a cup of coffee. On the other side of the secretary was a typical American, who had not the slightest idea that his neighbor on the left was the American premier. Mr. Hay's face was a study of amusement when he was suddenly jabbed in the ribs by the elbow of this man, who at the same time addressed the secretary after this fashion: 'Say, sport, ferry over the confectionery, will ye?' The interesting part of it was that John Hay passed the sugar."—San Francisco Chronicle.

A LITTLE NONSENSE.

Why He's Eating Out While His Wife Is In Europe.

"Hello!" exclaimed Hashley, meeting Bakerman in a restaurant at 7:30 a. m. "I thought you were going to cook your own breakfasts while your wife was in Europe. Come to think of it, you even invited me up to see what you could do in the way of a bachelor dinner."

"That's right," replied Bakerman gloomily, "but my plans have been upset, for the present at least. I shall have to wait until my wife reaches the other side, receives the letter I wrote to her last night and can find time to reply. You know what a careful, methodical woman she is. Well, she made out a list of everything in the house I should require while she was gone, told me where to find it and put the keys of all the cupboards I should be likely to use on a separate ring."

"Well?" asked Hashley, after a long pause.

"Then she carefully locked the cupboards, packed the list and the keys in her trunk and carried them away with her."—New York Press.

A Touching Story

Is the saving from death, of the baby girl of Geo. A. Elyer, of Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 60c and \$1.00 guaranteed. Trial bottle free.

CONSIDER THIS OUTING.

By far the most attractive trip for health and pleasure the coming vacation season, is that offered by the Seashore excursion Thursday, August 17th, over Pennsylvania Lines to Atlantic City, Cape May and seven other famous summer heavens on the Atlantic Coast.

The fast through trains over Pennsylvania Lines take passengers in a few hours out of heat and humidity of summer to the cool breezes of old ocean. This mid-August excursion occurs 'in the season for rest when it is most convenient to leave business. Excursionists have the added pleasure of seeing Atlantic City when it is in full tide of the fashionable season. The greatest representative gatherings ever known at any resort are seen at Atlantic City. As many as 50,000 people at one time promenade the famous board walk. The fashionable bathing houses present an unparalleled scene—fully 100,000 bathers in the sea and on the beach.

The healthful effect of the seashore trip is due to the salt and pine air. So beneficial has this proved that physicians send their patients there to get the benefit of breathing the pure ocean air.

Special low fares will be in effect for this Seashore excursion. Full information will be freely given by local ticket agents of the Pennsylvania Lines.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 510 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctor's drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time was entirely cured." Guaranteed at all Drug Stores; price 50c.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 32 pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before it puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.
